

Proof of qualification in the use of the High-Frequency Ultrasound Imaging System

User information

Department	
Principal investigator	
User name	
Contact number	
Email	
Equipment reservation system account	

Qualification procedure

1. Complete the training course and finish the qualification procedure within the 1 year from completion of the training course
2. Practice operating the equipment under supervision by those who are authorized to operate the equipment
3. Contact the equipment supervisor and pass the qualification test for equipment operation
4. Apply for authorization for unsupervised equipment operation on the equipment reservation system

Notes

1. Charges are made for all practice and qualification tests relating to equipment operation.
2. After use of equipment, a supervisor must inspect the equipment.
3. Those who are not authorized to use equipment without supervision but operate equipment without the company of an authorized supervisor will be blocked from equipment reservation for 3 months.
